

## Bikeability Consent Form - Level 1 & 2

Great news! Your school has taken up the opportunity of Bikeability level 1 & 2.

The course starts off-road, then if all outcomes are met, progresses to the **local roads** for Level 2. It helps children learn practical skills and understand how to cycle on today's roads.

**To find out more about the training and ensure they are prepared please visit [Bikeability](https://www.bikeability.org.uk).**

Bikeability is the Government's national cycle training programme. It gives everyone the confidence to cycle and enjoy this skill for life, however, is not a guarantee of their safety.

### What you need to know...

- To take part, the participant needs to be able to ride without stabilisers, pedal one handed, and look behind whilst maintaining a straight line.
- The cycle needs to be in a roadworthy condition and have two working brakes. Parents/carers should check the following prior to training:
  - Saddle/seat height and position
  - Secure handlebar height and position
  - Angle of brake levers and gear shifters
  - Alignment of brakes and adjust brake lever reach
  - Tighten wheels
  - Pump tyres and fix any puncture(s)
- It is your responsibility to ensure the cycle meets the roadworthy requirements. Instructors may adjust the cycle as above, however if they deem it not roadworthy, they may have to discontinue training.
- Instructors reserve the right to stop training if the participants behavior is not acceptable, or if their cycling skills aren't suitable. It's all about keeping the ride safe for everyone.
- They need to be **appropriately dressed** for the weather and bring a **snack and drink** in a **small rucksack**.
- You will need to provide a helmet (not full face), which conforms to EN 1078. Instructors may adjust the helmet if required.
